

Extra-Curricular Activities

Early Years Foundation Stage & Comet Club

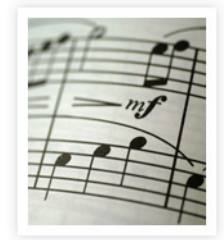

Aged 3 to 11 Years old

Musical Theatre

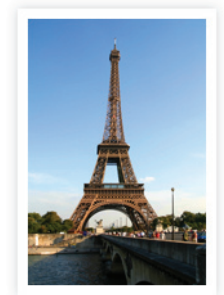

Musical theatre takes place in our purpose built studio hall. It is a valuable aspect of our curriculum, offering opportunity for the children to explore and express through drama, dance and song.

Promoting and building upon confidence, self esteem and good spatial awareness.

Music

Providing an opportunity for young children to learn to read and play music. A superb learning opportunity for your child, the tuition will prepare the children for more formal tuition later on and will give much-needed grounding in basic music skills, such as rhythm and notation. Through listening, movement and participating in playing instruments, the children become more aware and perceptive to music in their own environment. The emphasis is strongly on enjoyment!

French

Providing a superb learning opportunity for young children to learn to speak and recognise French with our qualified French teacher.

Through listening, movement and participating in playing games, the children become more aware and perceptive to French in their own environment. The emphasis is on enjoyment!

Yoga

This activity promotes physical development and good spatial awareness, encouraging positive self-image and self-esteem. The session includes links to the Early Years Foundation Stage curriculum topics.
